If that is the only condi-tion upon which the section of the British property of the property of the property speaks will come to Canada, or will work after they do come. Canada will have to take off its future harvests without help from that quarter. There is not option to the miner-tar-vesters make or approve any such im-possible demands. Mr. Kirkwood evidently speaks for only a small minority. With the exception of these, the harvesters ap-pear to be generally satisfied with condi-making the most of the opportunity to earn real wages. Nor have there been complaints that they are not giving satis-laction to their employers.
